

**2020 Legislative Update
Board of Pharmacy**

The following bill was enacted by the General Assembly during the 2020 legislative session and may impact the Board of Pharmacy and/or the Board of Pharmacy licensees:

Emergency prescription refill increased to a fourteen-day supply or thirty-day supply based on packaging, [S.16/Act 117](#)

The Act increased the amount of a prescription a pharmacist may dispense as an emergency refill from a ten-day supply to a fourteen-day supply, or a thirty-day supply depending on the medication packaging. Specifically, the Act amends Section [40-43-86\(P\)](#) to authorize a pharmacist who receives a request for a prescription refill and is unable to obtain refill authorization from the prescriber, to dispense once within a twelve-month period, an emergency refill of up to a fourteen-day supply of the prescribed medication under the following conditions: the prescription is not for a controlled substance; the medication is essential to the maintenance of life or the continuation of therapy; continuing the therapy for up to fourteen days will produce no undesirable health consequences or cause physical or mental discomfort; the pharmacist properly records the dispensing; and the dispensing pharmacist notifies the prescriber of the refill and the amount of the refill no later than ten days after the refill is dispensed. The Act further provides that in the event that a pharmacist is unable to dispense an emergency refill for the time period specified in this subsection due to the medication's packaging, the pharmacist is permitted to dispense up to a thirty-day quantity of the medication so long as the requirements contained in the subsection are otherwise met.

Effective date: March 24, 2020
